## COMPUTER SCIENCE ASSIGNMENT

## Boolean Algebra :Revision Assignment

## Question1.

a. State two Distributive laws and prove any one with the help of truth table.
b. Draw the truth table to prove $(x=>y)^{\wedge}(y=>x)=x \Leftrightarrow y$
c. Find the Dual for the Boolean equation: $A B^{\prime}+B^{\prime}+\mathbf{1}=\mathbf{1}$.
d. Find the complement of the following expression $\mathbf{X} \mathbf{Y}^{\prime} \mathbf{Z}+\mathbf{X Y}+\mathbf{Y} \mathbf{Z}^{\prime}$
e. If $\mathbf{A}=1, \mathbf{B}=\mathbf{0}, \mathbf{C}=\mathbf{0}, \mathbf{D}=1$ find its
(i) maxterm
(ii) minterm
f. Using a truth table verify $\mathbf{X}+\mathbf{X Y}=\mathbf{X}$ and also state the law.
g. State the principle of Duality.
h. Convert : AB + $\mathbf{B C}$ ' to its canonical SOP form using Boolean algebra.
i. Minimise the following expression using K-map:

$$
F(a, b, c)=A^{\prime} B C^{\prime}+A^{\prime} B C+A B C^{\prime}+A B C
$$

j. $\quad$ If( $\sim X \Rightarrow \sim \mathcal{Y})$ then write its:
(iii) Converse
(iv) Contra positive

## Question 2.

(a) Given the Boolean function: $\mathbf{F}(\mathbf{A}, \mathbf{B}, \mathbf{C}, \mathbf{D})=$

## $A B C^{\prime} D^{\prime}+A^{\prime} B C^{\prime} D^{\prime}+A^{\prime} B C^{\prime} D+A B C^{\prime} D+A^{\prime} B C D+A B C D$

(i) Reduce the above expression by using 4-variable K-Map. Showing the various groups ( i.e., octal, quads, and pairs).
(ii) Draw the logic gate diagram of the reduced expression.

Assume that the variables and their complements are available as inputs.
(b) Given the Boolean function: $\mathbf{F}(\mathbf{P}, \mathbf{Q}, \mathbf{R}, \mathbf{S})=\boldsymbol{\pi}(\mathbf{0}, \mathbf{1}, \mathbf{2}, \mathbf{3}, \mathbf{5}, \mathbf{7}, \mathbf{8}, \mathbf{9}, \mathbf{1 0}, \mathbf{1 1})$
(i) Reduce the above expression by using 4-variable K-Map. Showing the various groups ( i.e., octal, quads, and pairs).
(ii) Draw the logic gate diagram of the reduced expression.

Assume that the variables and their complements are available as inputs.

## Question 3.

A school intends to select candidates for the Inter-School Athletic Meet, as per the criteria given below:

- The candidate is from the Senior School and has participated in an Inter School Athletic Meet earlier.

## OR

- The candidate is not from the Senior School, but the height is between 5 ft and 6 ft and weight is between 50 kg and 60 kg .

## OR

- The candidate is from the Senior School and has height between 5 ft and 6 ft . but the weight is not between 50 kg and 60 kg
The inputs are:

| INPUTS |  |
| :--- | :--- |
| S | Student is from senior school |
| W | Weight between 50 kg and 60 kg |
| H | Height is between 5 ft and 6 ft |
| A | Taken part in inter school Athletic meet earlier |

Output: X-denotes the selection criteria[ 1 indicates selected and 0 indicates rejected in all cases]

Draw the truth table for the inputs and outputs given above and write the SOP expression for X(S,W,H,A) and reduce it using K-map.

## Question 4:

(a) A person is allowed to travel in a reserved coach of the train, if he/she satisfies the criteria given below:

- The person has a valid reservation ticket and valid ID proof.

## OR

- The person does not have a valid reservation ticket, but holds a valid pass issued by the railway department with valid ID proof.

## OR

- The person is a disabled person and holds a valid pass issued by the railway department with valid ID proof.

## The inputs are :

$R$ : The person has a valid reservation ticket
$P$ : The person holds a valid pass issued by the railway department
D: The person has a valid ID proof
H : The person is a disabled person
(In all the above cases 1 indicates yes and 0 indicates no )
Output: T- Denotes allowed to travel [1 indicates yes and 0 indicates no in all the cases]
Draw the truth table for the inputs and outputs given above and write the POS expression for $T(R, P, D, H)$

## ECONOMICS ASSIGNMENT

## Class : XII-C \& D

Q. 1 What is barter system of exchange?
Q. 2 write any 4 shortcomings of barter system of exchange.
Q. 3 Explain double coincidence of wants.
Q. 4 Distinguish between the following:
A. Currency and Deposit money.
B. Limited and unlimited legal tender money.
C. Convertible and inconvertible money.
Q. 5 Explain the following terms.
A. Fiat money.
B. Deposit money.
C. Token money.

## CLASS XII E

Q. 1 Explain the primary functions of money.
Q. 2 Explain the secondary functions of money.
Q. 3 Explain the role of money in modern economies. (Contingent functions)
Q. 4 Explain $\mathrm{M} 1, \mathrm{M} 2, \mathrm{M} 3$ and M 4 concepts of money supply.
Q. 5 Define High Powered Money.

## PHYSICS ASSIGNMENT

## CLASS XII A

(1) Prepare notes of above explained topics.
(2) Solve conceptual problems related to explained topics.

## CLASS XII B

1.Prepare notes from the marked topics in the book.
2.Do numericals 2,3,4 and 6
